

JAMES N. ROY D.M.D.

ORTHODONTICS EXCLUSIVELY

Dear Valued Patients and Friends,

After over 20 years of providing orthodontic care to the Bedford-Manchester communities, I am pleased to welcome Dr. Danielle London to the practice. As I planned for the future, I have taken great effort to find someone who can uphold the high quality of care and level of patient empathy that you have appreciated. I will be working alongside Dr. London over the next several months to ensure a smooth transition. As of August, patients will be treated by London Family Orthodontics.

Danielle was born and raised in rural New Jersey. She attended dental school at Columbia University in New York City where she graduated first in her class. Danielle continued her education at the University of Oklahoma where she received a Certificate in Orthodontics and a Master's of Science Degree in 2017. Danielle has since been practicing orthodontics in Oklahoma where she refined her clinical skills and remained on the cutting edge of the latest orthodontic techniques. Dr. London is proficient in Invisalign, laser treatment, and the use of temporary anchorage devices.

Danielle and her husband Alex, along with their young son and three dogs are excited to be moving to New Hampshire and becoming part of the community they will serve. I am impressed with Dr. London's sincerity, warm-personality and commitment to quality patient care. Our wonderful staff will be the same and will be there to assist you any way they can.

Please welcome Danielle and her family to New Hampshire. I have thoroughly enjoyed the relationships I have developed with my patients and families over these years. We look forward to working with you in the future and I trust you will show Dr. London the same loyalty and friendship you have shown me.

Sincerely,

James N. Roy DMD
